Install/Uninstall instructions for ArcGIS Toolbar

LFTFC This has been tested with 10.3-10.6, 10.7.1

1. Uninstall any previously installed LFTFC toolbars
   a. All LFTFC toolbars prior to version 0.319 must be uninstalled through the “Control panel”,”Programs”, “Uninstall a program”
   b. All other versions scroll down to “Uninstalling” heading.

2. Installing - Run Setup_LFTFC.bat
   a. Double left click to run “Setup_LFTFC.bat”
   b. This copies required files to "C:\Landfire\LFTFC"
   c. Once the black command window closes automatically (2 minutes...ish), then the ArcGIS Add-in window opens.

3. ArcGIS Add-in window opens
   a. Start ArcMap and LFTFC should be visible
   b. If LFTFC is not visible, right click in the toolbars and select “LFTFC”
Uninstalling

1. Start ArcMap
   
   a. Select “Customize” at the top of the screen in the menu bar.
   
   b. In the “Customize” menu bar select “Add-in Manager”
   
   ![Add-In Manager](image)
   
   c. Select “LFTFC Toolbar” located under “My Add-Ins”
   
   d. Click “Delete this Add-In”

2. Open “Windows Explorer”
   
   a. Navigate to the “\(C:)\” directory
   
   b. Delete the folder named “Landfire”
   
   c. Close ArcMap. The next time you open ArcMap “LFTFC” toolbar should be gone.
